TECHLOOMIX

30-Day IT Career Study Planner

Plan one month of focused learning without trying to study everything at once.

Week 1 — Foundations

Day	Mission
1	Choose target role and review real job postings
2	Core hardware/OS concepts
3	TCP/IP, DNS and DHCP
4	Security and access basics
5	Linux/Windows command practice
6	Build or document a small home lab
7	Weekly review and notes

Week 2 — Technical Depth

Day	Mission
8–10	Role-specific core technologies
11–12	Guided labs
13	Explain concepts aloud without notes
14	Practice quiz and gap review

Week 3 — Troubleshooting

Day	Mission
15–17	Ticket/scenario practice
18	Logs and monitoring
19	Networking fault isolation

Day	Mission
20	Document a complete troubleshooting case
21	Weekly review

Week 4 — Job Readiness

Day	Mission
22–24	Hands-on project
25	Truthful resume alignment
26	Technical interview practice
27	Behavioral interview practice
28	Apply to suitable roles
29	Review weak areas
30	Readiness checkpoint and next 30-day plan

Educational resource. Adapt procedures to your environment, employer policies, safety rules, current vendor documentation, and authorized scope.
